

OUAZ Cyber for Managers Certification

Managers need cyber methodology knowledge together with technical and management skills to gain the respect of technical team members, understand what technical staff are actually doing, and appropriately plan, act, prepare and manage security projects, incidents and initiatives. This is a big and important job that requires an understanding of a wide array of security topics.

A man with dark, curly hair and a beard, wearing a dark suit, a light blue shirt, and a red tie, stands with his arms crossed. He is smiling slightly and looking towards the camera. The background is a blurred office setting with windows and desks.
